#### Step 3 : Run Inndoor Server

- 1. To start using Inndoor, you must first start up Inndoor Server.
- 2. On Window XP system, double click on the Inndoor Server Manager icon.

On Wndow 7 system, right hand click on mouse on the Inndoor Server Manager icon and select Run as adminstrator option.

The following screen will be displayed.

👆 Pavsoft Inndo	or Server Properties
General Log On	Logging Java Startup Shutdown
Service Name:	InndoorService
Display <u>n</u> ame:	Pavsoft Inndoor Server
Description:	Pavsoft Inndoor Server
Pat <u>h</u> to executab	le:
C:\opt\inndoor\	svr\InndoorService.exe //RS//InndoorService
Startup typ <u>e</u> :	Automatic 🗸
Service Status:	Stopped
<u>S</u> tart	Stop Pause Restart
	OK Cancel Apply

- 3. Click on [Start] button to start the server. Once the server has started, just click on the [OK] button to exit out of Inndoor Server Manager.
- 4. The Inndoor server application must be left running at all time once it is started. You only need to restart the Inndoor Server if you reboot the machine.

#### Step 4 : Run Inndoor User Client

1. To run the User Client, double click on the Inndoor User Client icon. The Login menu will be displayed with the default UserID "SUPERVISOR" with no password.

🛎 Login	
UserID	SUPERVISOR
Password	
Server	localhost 💌
	V OK X Cancel

2. Click on the [OK] button. When you login for the first time the system will display a Login Warning because the system require a valid license key.

4. Click [OK]. The system will display the unlicensed menu.

#### Step 5 : Get Unlicensed key from your PC

1. Select File/Activation menu.

linndoor	
<u>F</u> ile	<u>H</u> elp
Activation	
Logout	

2. The Inndoor License Activation menu will be display. This will contain the unlicensed key specific to your machine.

🛎 Inndoor Lic	ense Activation	
License Key	58M20-KA9AD-9LJKJ-74164-JGT59-S9LAH-108DA M6M2F-9M2M4-82E85-6LAB1-289A2-RCHG6-4S2TC 1H5LR-32B1H-48N3C-D1L8M-142D1-S5GR3-0C1G6 0R30C-R	
	Commit Cancel	

3. Copy this License Key which is specific to your machine and send it to us.

#### Step 6 : Email us for a license key

- 1. Once you have done the above step 1 to step 5, please email us with the unlicensed key from your machine as specified in step 5 to get a new licensed key for your machine.
- 2. Please email to <u>inndoor@pavsoft.com.au</u> with the following details so that we can generate a license key for your PC.
  - License Key specific on your machine (from step 5)
  - Name
  - Email
  - Phone
  - Hotel Name or Company (\* Licensed To)
  - Address
- 1. We will email you a valid license key for trial which will be valid for 30 days.

#### Step 7 : Activate software with a valid license key

- 1. With the new valid license key, go to User Client File/Activation menu on the user client program.
- 2. Paste the new license key into the Indoor License Activation form and press [Commit] button.
- 3. This will activate all the Inndoor functions and you can start to run the full functionality of Inndoor PMS.
